Professional Summary

Backend-focused Java Full Stack Developer with strong expertise in Java, Spring Boot, Spring Security, REST APIs, Hibernate and Microservices. Experienced in designing secure and scalable backend applications while also building responsive user interfaces using Angular. Passionate about clean architecture, problem solving and developing maintainable full-stack applications using modern software development practices.

Technical Skills

- **Languages:** Java, SQL
- **Backend:** Spring Boot, Spring Framework, Spring Security, Spring Data JPA, Hibernate, REST APIs, JWT Authentication
- **Frontend:** Angular, TypeScript, HTML5, CSS3, Responsive Design
- **Microservices:** Eureka Server, API Gateway, Config Server, OpenFeign
- **Databases:** PostgreSQL, MySQL, Oracle
- **Tools:** Git, GitHub, Maven, Postman
- **Documentation:** Swagger / OpenAPI
- **Concepts:** OOP, Layered Architecture, MVC Architecture, DTO Pattern, Validation, Global Exception Handling, RESTful Web Services

Projects

BuildTrack – Construction Management System

- Developing a full-stack construction management platform using Spring Boot and Angular.
- Designed secure REST APIs with Spring Security and JWT Authentication.
- Implemented role-based authentication and authorization for Admin and Employee modules.
- Following layered architecture with DTO Pattern, validation and global exception handling.
- Integrating PostgreSQL using Spring Data JPA and Hibernate.
- Developing responsive Angular UI with Reactive Forms and REST API integration.
- Managing source code using Git and GitHub.

Startup CRM – Microservices Application

- Developed Client Management Microservice using Spring Boot.
- Implemented Microservices Architecture using Eureka Server, API Gateway, Config Server and OpenFeign.
- Built secure REST APIs with Spring Security and JWT Authentication.
- Integrated MySQL/PostgreSQL using Spring Data JPA and Hibernate.
- Applied DTO Pattern, validation and global exception handling.

Personal Portfolio Website

- Designed and developed a responsive portfolio using Angular.
- Integrated Spring Boot backend contact form with JavaMail.
- Implemented responsive layouts, reusable components and smooth animations.
- Optimized SEO using meta tags, sitemap and robots.txt.

Education

Bachelor of Technology – Computer Science Engineering

Tirumala Engineering College, Narasaraopet
CGPA: 7.2

2022
